Research papers

Exsolution of nitrogen and argon by methanogenesis in Dutch ground water
N. P. M. Fortuin and A. Willemsen 1
Hydrologic processes in China and their association with summer precipitation anomalies
M. Chen, D. Pollard and E. J. Barron 14
A simple, rapid method for mapping bathymetry of small wetland basins
C. Wilcox and M. L. Huertos 29
Some hydrological applications of small sample estimators of Generalized Pareto and Extreme Value distributions
C. De Michele and G. Salvadori 37
Quantitative relationship between SOI and observed precipitation in southern Korea and Japan by nonparametric approaches
Y.-H. Jin, A. Kawamura, K. Jinno and R. Berndtsson 54
Angle and aspect dependent dew and fog precipitation in the Negev desert
G. J. Kidron 66
Input determination for neural network models in water resources applications. Part 1—background and methodology
G. J. Bowden, G. C. Dandy and H. R. Maier 75
Input determination for neural network models in water resources applications. Part 2. Case study: forecasting salinity in a river
G. J. Bowden, H. R. Maier and G. C. Dandy 93
Sediment transport in urban runoff over grassed areas
A. Deletic 108
Effect of pond shape and vegetation heterogeneity on flow and treatment performance of constructed wetlands
A. Wörman and V. Kronnäs 123
Method for measuring velocity of shallow water flow for soil erosion with an electrolyte tracer
L. Tingwu, W. Xia, J. Zhao, Z. Liu and Q. Zhang 139
Artificial neural network technique for rainfall forecasting applied to the São Paulo region
M. C. Valverde Ramírez, H. F. de Campos Velho and N. J. Ferreira 146
Reductive dissolution of Mn oxides in river-recharged aquifers: a laboratory column study
B. M. Petrunic, K. T. B. MacQuarrie and T. A. Al 163
Field studies of the GPR ground wave method for estimating soil water content during irrigation and drainage
L. W. Galagedara, G. W. Parkin, J. D. Redman, P. von Bertoldi and A. L. Endres 182
Measurement and modeling of concentrated runoff in grassed waterways
P. Fiener and K. Auerswald 198
River networks and groundwater flow: a simultaneous solution of a coupled system
O. Gunduz and M. M. Aral 216
The hydrological impact of the mediterranean forest: a review of French research
C. Cosandey, V. Andréassian, C. Martin, J. F. Didon-Lescot, J. Lavabre, N. Folton, N. Mathys and D. Richard 235
Hydrology and Geostatistics of a Vermont, USA Kettlehole Peatland
P. J. Mouser, W. C. Hession, D. M. Rizzo and N. J. Gotelli 250
Comparison of root water uptake modules using either the surface energy balance or potential transpiration
I. Braud, N. Varado and A. Olioso 267

Technical note

The role of 3D visualisation as an analytical tool preparatory to numerical modelling
N. S. Robins, H. K. Rutter, S. Dumpleton and D. W. Peach 287

doi:10.1016/S0022-1694(04)00555-4
